

Colon and Rectal Surgery Inc.

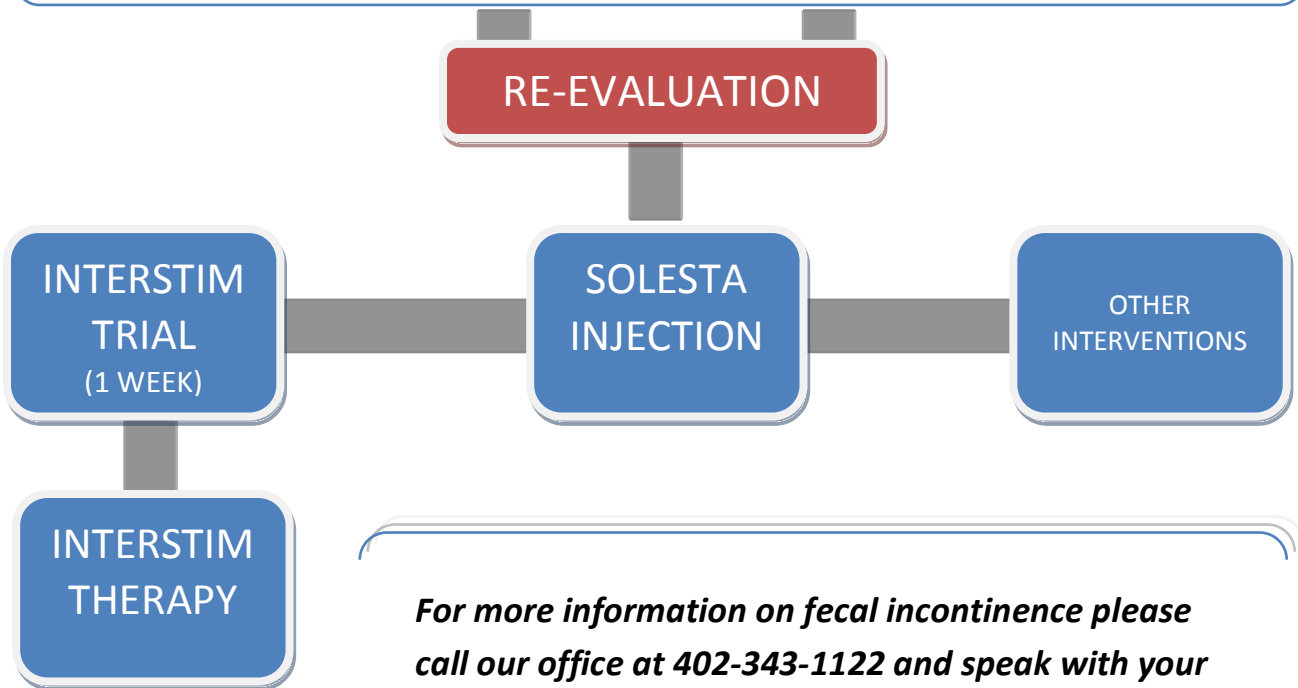

The Colonoscopy Center Inc.

CONSERVATIVE THERAPIES

You should see noticeable symptom improvement (50% or greater) with conservative treatments in a period of 1-3 months. If you are experiencing less than 50% improvement, it may be time to re-evaluate your treatment options.

ADVANCED THERAPIES

For more information on fecal incontinence please call our office at 402-343-1122 and speak with your physician's medical assistant
